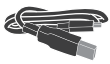
PACKAGE CONTENTS

Headphones



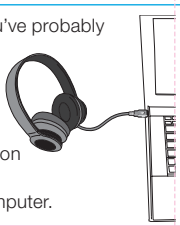
Charging Cord

User Manual

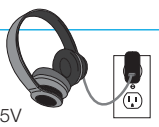
Packaging doubles as carrying case

JUST CHARGE IT

Charging the headphones is so easy you've probably figured it out by now, but just in case, you've got two options: You can charge it using your computer or a wall outlet.



1. The cord that came with the headphones —the one with the USB on one end and the Micro USB on the other—is made to work with your computer.
2. If you want to use the wall outlet, you'll need to pick up a power cord with a Micro USB the next time you're at the store, or use any USB AC adapter (DC 5V +/– 0.25V rated current: >250mA), including the one for your cell.



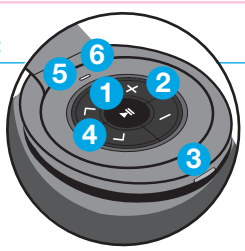
Wall adapter not included

Plug it in and your headphones will be ready for an epic night in no time. You should go get ready too! They need about 3 hours for 11 hours of party time.

CONTROL YOUR DESTINY…OR AT LEAST YOUR HEADPHONES

1. This is the power button, press and hold for 5 seconds to power on. Push it to play, push it again to pause
2. Turn the music up or down (Wait, why would you turn it down?)
3. The power cord goes here
4. Skip back a track or jam on to the next song
5. This light lets you know when Bluetooth is paired with your headphones
6. Check out how much juice is in the battery

FEATURES:



ALLOW US TO SHED SOME LIGHT

	What It Looks Like	What It Means
CHARGE	Flashing Red	Low Battery
	RED (when plugged in)	Charging
	LED OFF (full charged)	Ready to Party
Bluetooth	Quick Flash BLUE/RED	Pairing Mode
	Slow Flash BLUE	Connected

BLUETOOTH® CONNECTION: IT'S A SETUP

Like any amazing couple, this one starts with a connection —one between your device and the headphone's Bluetooth.

1. We know you're probably going to think, "derp" with this one, but we have to say it: Make sure the smartphone, tablet or computer you want to hook up to the headphones has Bluetooth. (There. We got that out of the way.)
2. Turn on the headphones and look for the little blinking light.
3. Do whatever your device needs you to do on its end. (We don't know what you're using. We're not spies.)
4. Look for Jam Transit Headphones in your device's Bluetooth list or click YES—whatever pops up on your device—and BAM! you're connected.
5. Now hit PLAY on your headphones and crank it up—or down if you're lame.

You're probably only going to have to do this once, unless your device goes through a major I-just-dropped-it-in-the-pool kind of reboot. The device and Bluetooth will find each other every time just as long as the headphones are set to Bluetooth and your device's Bluetooth is, you know—on

If you're connecting to a computer, you may have some extra steps on that end. You'll have to get that information from the computer company.

Depending on your device you may be prompted to enter a pairing code. If prompted enter "**0000**" as the code.

Press and hold the +/– button for 5 seconds to activate pairing mode.

Note: If you turn on your Transit Headphones but haven't started the party, they will automatically power off after 2 minutes of unpaired inactivity.

HELLO? SPEAKERPHONE? YES!

When friends call to interrupt your party of one—and you know they will—answer the phone without disconnecting from your JAM Transit. Yes, that's right. Your headphones are a speakerphone too. How amazing is that?

Here's how it works:

1. Make sure your phone and headphones are connected through Bluetooth.

2. Answering and ending a call works the same way: simply click the PLAY/PAUSE button on your Transit.
3. If you'd rather not talk, hold down the PLAY/PAUSE button on your Transit for three seconds to ignore the call.

THE COOLEST PART: The Transit knows when a call is coming in and pauses the music before ringing. When you hang up, the music starts where it left off—and so does the party. If it's you making the call, just start dialing from your phone, and the Transit automatically does its hands-free thing. Isn't it refreshing to know your headphones totally get you?

COMING CLEAN

A soft, dry towel is all you need to clean off your headphones. Using water, harsh cleaners or anything else only starts messing with the mechanics inside. So, yeah, don't do it.

STUFF THE GOVERNMENT MAKES US SAY

FCC DISCLAIMER:

Note: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: Changes or modifications not expressly approved by HMDX could void the user's authority to operate this equipment.

Please have the model number of the product available.
Representatives are available 8:30am - 7:00pm EST Monday-Friday.

STUFF OUR LAWYERS MAKE US SAY

IMPORTANT SAFEGUARDS:

When using an electrical product, basic precautions should always be followed, including the following:

READ ALL INSTRUCTIONS BEFORE USING

- **WARNING:** Listen responsibly. To avoid hearing damage, make sure the volume on your device is turned down before connecting headphones. After placing headphones on your ears, gradually turn up the volume on Transit until you reach a comfortable listening volume.
- Use this product only for its intended use as described in this manual. Do not use attachments not recommended by HMDX.
- HMDX is not liable for any damage caused to Smartphones, iPod/MP3 player or any other device.
- Do not place or store this product where it can fall or be dropped into a tub or sink.
- Do not place or drop into water or any other liquid.
- Not for use by children. THIS IS NOT A TOY.
- Never operate this product if it has a damaged cord, plug, cable or housing.
- Keep away from heated surfaces.
- Only set on dry surfaces. Do not place on surface wet from water or cleaning solvents.

WARNING:

A MESSAGE FROM THE ENVIRONMENT

This product has an internal, non-replaceable lithium battery. Please dispose in accordance with your local state, province and country guidelines.

This product contains small parts that may present a choking hazard for young children.

CAUTION: All servicing of this product must be performed by authorized HMDX Service Personnel only

Note: The most up-to-date version of the Jam Transit User Guide can always be found at www.jamaudio.com
